### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite. On line 9, the phrase “first fastening means are arranged displaced towards” is unclear. Are the first fastening means arranged or displaced?

Claim 3 is vague and indefinite. On lines 2-3, the claims sets forth “at least three bodies”. What is the difference between “the at least three bodies” and “the at least one body” set forth in Claim 2, lines 4-5? Is the at least one body part of the at least three bodies or are there four bodies? Further what is the difference between the “partitioning septum” set forth on line 7 and the “partitioning septum” of Claim 2, line 8?

Claim 7 is vague and indefinite. On line 12, the phrase “first fastening means are arranged displaced towards” is unclear. Are the first fastening means arranged or displaced?

With respect to Claim 10, line 2, the word “In” should be replaced with the word --in--.

Claim 15 is vague and indefinite. On line 13, the phrase “first fastening means are arranged displaced towards” is unclear. Are the first fastening means arranged or displaced? On line 17, the term (180”) should be replaced with the term --180° --.

### ***Allowable Subject Matter***

Claims 1-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner’s statement of reasons for allowance:

Art Unit: 3654

Claims 1-15 would be allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the system for retaining paper rolls of different width set forth including a positioning element suitable for being rotated through 180° about a vertical axis of symmetry from said first position, in which said first narrow roll is retained by means of said first side of said element, to said second position, in which said second broad roll is retained by a second side, opposite said first side, of said positioning element, and vice versa. None of the references of the prior art teach or suggest rotating a positioning element 180 degrees about a vertical axis to accommodate different sized rolls as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the system in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
